# **Description**

Boost your plants with a shot of phosphorus with Universol® Yellow. It's perfect for use just after potting to stimulate rooting of freshly planted crops and support bud growth. This product contains NPK, Mg, and a full package of trace elements. Plus, the Bright Solution System fully dissolves the product in no time.

## **Benefits**

- Easy to apply, safe to use and contains elements: NPK, magnesium, trace elements;
- Always the same composition thanks to stringent quality control;
- Quick effect due to strong, fast performance;
- Dissolves entirely and quickly because of the special ingredients and the 'Bright Solution System';
- Excellent price / quality ratio;
- **\** Always a suitable analysis for your crop.

## Characteristics

#### How to use

- Depending on the situation, use Universol® Yellow once or twice again before changing to a more nitrogen-based formula.
- Can be mixed with potassium nitrate, magnesium nitrate, magnesium sulphate, phosphoric acid, nitric acid, and products from the Universol® Standard range.
- Do not mix with calcium nitrate, Universol® Soft Water, Universol® Hard Water, Universol® White, Universol® Special P, or other compound water-soluble fertilizers.
- 4 If you need more information, please contact your technical support.

## **Application rates**

Please contact ICL for application rates specific to your situation.

Recommended rates in g/L represents the dilution rate in irrigation water.

### Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
