NK

Zero phosphorus, balanced analysis

19 | 0 | 15.8 | 6 | 1.2 | 2.6 | TE  
N | P | K | S | Mg | Si | TE

### Guaranteed analysis

Elemental		
N	Total Nitrogen	19%
	Urea nitrogen (N-Urea)	9.4%
	Ureaformaldehyde (N-MU)	9.6%
P	Phosphorus	0%
K	Potassium	15.8%
	Water soluble (K)	15.8%
Mg	Magnesium	1.2%
Cu	Copper	0.020%
Fe	Iron	0.50%
Mn	Manganese	0.10%
Mo	Molybdenum	0.001%
Zn	Zinc	0.020%

### Description

A fertilizer with zero P for healthy green turf. This balanced NK fertilizer contains slow-release nitrogen and potassium for 6 – 8 weeks of nutrition, as well as standard-release, and magnesium to boost color and minimize any signs of stress. It comes in a single-compound micro-granule form, making it easy to apply, with our patented MU2 and SiLK coating technologies. An ideal product on fine turf, from spring through to late summer.

### Benefits

- \\ Balanced N&K ratio for strong in-season growth
- \\ Slow release N (MU) for consistent and sustained turf response
- \\ Zero P analysis where P supply is already sufficient
- \\ Even spread at low application rates

## How to use

- 1 If spilled on pavement, concrete, clothes, etc.
- 2 Brush off immediately as it can stain.
- 3 Contains iron: do not apply in case of risk of contact with concrete, marble, stone, fabric, or swimming pools.
- 4 If you need more information, please contact your technical support.

## Application rates

---

Recommended Rate: 20 – 30 g/m<sup>2</sup>

Trial first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
