	Zinc EDTA (Zn)	0.010%

Description

If it's strong and compact growth you want, Universol® Violet is up for the job. With its high potassium content, it delivers a stunning leaf color and great flower development. This special formula helps slow down plant growth, making them sturdier. Also use Universol® Violet for better nutrition to balance out nitrogen in irrigation water. This product contains NPK, Mg, and a full package of trace elements. Plus, the Bright Solution System fully dissolves the product in no time.

Benefits

- Strong, compact plant growth
- Easy to apply, safe to use, and fast-acting
- Consistent composition thanks to stringent quality control

Characteristics

How to use

- 1 Can be mixed with potassium nitrate, magnesium nitrate, magnesium sulphate, phosphoric acid, nitric acid, and products from the Universol® Standard range.
- 2 Do not mix with calcium nitrate, Universol® Soft Water, Universol® Hard Water, Universol® White, Universol® Special P, or other compound water-soluble fertilizers.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.
- 5 If you need more information, please contact your technical support.

Application rates

Pot and bedding plants:

	100% Universol (continuous feeding)	50% Universol when using 50% Osmocote
Crops with high fertiliser requirements	1-2 g/l	0.5-1 g/l
Crops with normal fertiliser requirements	1-1.5 g/l	0.5-0.75 g/l
Salt sensitive crops	0.5-1 g/l	Depends on situation

Container nursery stock:

	100% Universol	50% Universol when using 50% Osmocote
Crops with high fertiliser requirements	20 g/m2/week	10 g/m2/week

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
