

ShakerPro Spreader

Hand held spreader

Description

The ShakerPro spreader is the ideal tool for efficiently applying fertilisers, granular wetting agents and seeds to small areas, making it particularly valuable for divot repairing.

Benefits

- \\ Ideal for divot repairing
- \\ Made from sturdy, quality materials
- \\ Spreads fertilisers, seeds and granular wetting agents
- \\ Easy to use

How to use

Using the ShakerPro is a breeze. Just pour in the product, twist to lock, spread evenly, and then securely store it after use. This user-friendly device simplifies the process of distributing various granular substances with remarkable efficiency.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
