## Guaranteed analysis

### Elemental

N	Total Nitrogen	5%
	Ammoniacal nitrogen (N-NH <sub>4</sub> )	1.1%
	Urea nitrogen (N-Urea)	3.9%
P	Phosphorus	2.8%
	Water soluble (P)	2.8%
K	Potassium	2.9%
	Water soluble (K)	2.9%
Cu	Copper	0.020%
	Water soluble (Cu)	0.020%
	Copper EDTA (Cu)	0.020%
Mn	Manganese	0.060%
	Water soluble (Mn)	0.060%
Zn	Zinc	0.080%
	Water soluble (Zn)	0.080%

## Characteristics

Pack size	10 litre, 200 litre and 1,000 litre
Formulation type	Liquid 4 weeks*
Longevity	depending on environmental factors < 24 hours*
Typical turf response	depending on environmental factors
Specific gravity	1.36

## Description

Vitalnova Blade is a much loved biostimulant for your turf plant and root zone. It's a direct source of energy for your turf, containing macro- and micronutrients, seaweed extract and carbohydrates that supply simple sugars where they're needed. It will improve your soil by raising its bacteria population and helping Mycorrhiza colonies proliferate so root zones will be healthier and full of life. You'll find that seeds emerge faster and establish better, and the nutrient flow cycle will go from strength to strength, so any 'locked-up' nutrients are made available for your grass. Also includes NPK, plus iron and trace elements.

## Benefits

- \\ A direct source of plant energy – higher carbohydrate levels
- \\ Stimulates root dwelling microbes to improve nutrient uptake
- \\ Healthier soil for stronger roots
- \\ Increase root mass

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
