Guaranteed analysis

Elemental

N	Total Nitrogen	24%
	Nitrate nitrogen (N-NO ₃)	5.4%
	Ammoniacal nitrogen (N-NH ₄)	6.4%
	Urea nitrogen (N-Urea)	12.0%
	Ureaformaldehyde (N-MU)	0.2%
P	Phosphorus	2.2%
	Water soluble (P)	1.6%
K	Potassium	6.6%
	Water soluble (K)	6.6%
Mg	Magnesium	1.2%

Characteristics

Formulation type	Mini granule
Technology	Controlled release
Granule size	1mm–2.5mm 7 days (visually dispersed from surface)
Granule dispersal	*depending on environmental factors 3+ months
Longevity	*depending on environmental factors < 7 days
Typical turf response	*depending on environmental factors

Description

Get your growing season off to the perfect start with Sierrablen® Plus Spring Starter. Equipped with ICL's patented Poly-S and PACE technologies, this NPK fertilizer will provide your turf with a controlled nutrient release over a pre-defined 3-month period. With its high level of nitrogen, you can ensure a quick plant response, even in cooler conditions, allowing your turf to step into spring in an all-round healthy fashion.

Benefits

- Perfect as first controlled-release fertilizer of the season
- High nitrogen for a rapid response, even in lower temperatures
- Ensures all-round healthy early-season growth

How to use

Application rates

Average Recommended Rate:

30 g/m²

Recommended Rate:

25.00 - 35.00 g/m²

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
