

Sierrablen®

Turf Starter

 Boosting turf establishment

16		10.9		10.0	
N		P		K	

Description

Sometimes, even the very best grassy surfaces need a fresh start. When re-laying or over-seeding your turf, reach for Sierrablen® Turf Starter mineral fertilizer. Avoid burning young grass with a controlled nutrient release, which is made possible using ICL's patented Poly-S technology. Encourage strong root development with increased levels of phosphate, while your plants enjoy a rapid establishment and a healthy sward thanks to this fertilizer's controlled nitrogen release.

Guaranteed analysis

Elemental

N	Total Nitrogen	16%
	Ammoniacal nitrogen (N-NH ₄)	6%
	Urea nitrogen (N-Urea)	10%
P	Phosphorus	10.9%
	Water soluble (P)	8.2%

K	Potassium	10.0%
	Water soluble (K)	10.0%

Benefits

- \\ Avoid burning young grass with controlled nutrient release
- \\ Increased phosphate for stronger roots
- \\ Ideal for re-laying or over-seeding new turf

Application rates

Recommended Rate: 25.00 - 40.00 g/m²

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
