Guaranteed analysis

Elemental

N	Total Nitrogen	14%
	Ammoniacal nitrogen (N-NH ₄)	1.3%
	Urea nitrogen (N-Urea)	2.9%
	Ureaformaldehyde (N-MU)	9.8%
P	Phosphorus	0%
K	Potassium	5.8%
	Water soluble (K)	5.8%
Ca	Calcium	5.7%
	Water soluble (Ca)	5.7%
Mg	Magnesium	3.0%
	Water soluble (Mg)	3.0%
Cu	Copper	0.02%
Fe	Iron	0.5%
Mn	Manganese	0.100%
Mo	Molybdenum	0.001%
Zn	Zinc	0.02%

Characteristics

Formulation type	Micro granule
Technology	Slow release
Granule size	0.7mm-1.4mm
Granule dispersal	2-3 days
Longevity	6-8 weeks
Turf response	7 days

Application rates

Application Rate (g/m²) N applied (kg/ha) K applied (kg/ha) Bag Coverage per m²

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.

ICL Growing Solutions

Description

An agronomically balanced N to K ratio, with additional calcium and magnesium. Containing trace elements and SMX for improved stress tolerance and stronger roots, and sustained-release MU-based nitrogen for regular, steady growth. You'll get even coverage with these compound mini granules, even applied at a low rate. Ideal throughout the summer on all fine turf. Healthier grass all round, with nutrients released for up to 8 – 10 weeks.

Benefits

- 2:1 N:K ratio to support active in-season growth
- Ca & Mg supplied for all round turf health
- Stronger roots, healthier grass, steady growth
- Slow release N (MU) for consistent and sustained turf response
