Description

Universol® Special P is specifically designed to increase phosphate availability and uptake. With the product's unique composition, you get better performance and plant reaction than with conventional orthophosphate products. Contains a balanced NPK formula and trace elements, plus it features the unique Bright Solution System.

Benefits

Ready for immediate use

Nissolves quickly

N pH-neutral and stabilized

How to use

- 1 Prepare the stock solution 1-2 hours before use, stirring well or using warm water, to ensure that this product dissolves completely.
- 2 Store under dry conditions.
- 3 Properly seal partly used or damaged bags.
- 4 If you need more information, please contact your technical support.

Application rates

Please contact ICL for application rates specific to your situation. Recommended rates in g/L represents the dilution rate in irrigation water.
Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
