Characteristics

Description

No need to waste the colder months when there's Peters[®] Professional Winter Grow Special. All the fast-absorbing nitrate nitrogen will bring quick results. Perfect for growth in peat: for pot plants, bedding plants and container nursery stock. You won't find ballast substances in this formulation; Winter Grow Special features the unique Peters[®] M-77 chelating formula, as well as NPK, magnesium and trace elements to keep your plants growing no matter what the weather.

Benefits

- \\ Specially developed for growth in duller, colder conditions
- \\ Small, easy-dissolve granules
- \\ Nitrate nitrogen ensures quick results

How to use

- 1 It's best to prepare your stock solution 1-2 hours before use, stir well or use warm water to make sure that Peters® Professional Winter Grow Special dissolves completely.
- 2 Do not mix this product with Peters® Excel.
- 3 Close partly used or damaged bags securely.
- 4 Store under dry conditions.
- 5 If you need more information, please contact your technical support.

Application rates

Pot and bedding plants:

	100% Peters (continuous feeding)	50% Peters when using 50% Osmocote
Crops with high fertiliser requirements	1-2 g/l	0.5-1 g/l
Crops with normal fertiliser requirements	1-1.5 g/l	0.5-0.75 g/l
Salt sensitive crops	0.5-1 g/l	Depends on situation

Container nursery stock:

	100% Peters	50% Peters when using 50% Osmocote
Crops with high fertiliser requirements	20 g/m2/week	10 g/m2/week
Crops with normal fertiliser requirements	15 g/m2/week	7.5 g/m2/week

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
