Description

So many plants will love Peters[®] Professional Allrounder: this allround fertiliser boosts growth fast in any plants, whether potted, bedding or container nursery stock and can be used as a foliar feed too. Great in the spring and summer with its balanced NPK formulation containing urea, magnesium and trace elements, and no ballast substances. And there's the unique Peters[®] M-77 chelating formula too. An all-round winner.

Benefits

- Designed to maximize growth in all crops
- Small, easy-dissolve granules
- Balanced NPK formulation with urea: perfect for spring and summer

Characteristics

How to use

- 1 It's best to prepare your stock solution 1-2 hours before use, stir well or use warm water to make sure Peters® Professional Allrounder dissolves completely.
- 2 Do not mix this product with Peters® Excel.
- 3 Close partly used or damaged bags securely.
- 4 Store under dry conditions.
- 5 If you need more information, please contact your technical support.

Application rates

Pot and bedding plants:

	100% Peters (continuous feeding)	50% Peters when using 50% Osmocote
Crops with high fertiliser requirements	1-2 g/l	0.5-1 g/l
Crops with normal fertiliser requirements	1-1.5 g/l	0.5-0.75 g/l
Salt sensitive crops	0.5-1 g/l	Depends on situation

Container nursery stock:

	100% Peters	50% Peters when using 50% Osmocote
Crops with high fertiliser requirements	20 g/m2/week	10 g/m2/week
Crops with normal fertiliser requirements	15 g/m2/week	7.5 g/m2/week
Salt sensitive crops	10 g/m2/week	5 g/m2/week

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
