

Greenmaster[®] Pro-Lite[®]

Cold Start

 Kick-start your turf in cooler conditions

11 | 2.2 | 4.1 | TE
N | P | K

Description

Help your turf get off to the best start in colder climes with Greenmaster[®] Pro-Lite Cold Start – the ideal granular fertilizer for the start of season. Contains iron for a strong turf response without excessive growth, plus potassium and phosphorus for a rapid effect. See the results within a week and enjoy them for up to 6 weeks.

Guaranteed analysis

Elemental

N	Total Nitrogen	11%
	Ammoniacal nitrogen (N-NH ₄)	5.6%
	Urea nitrogen (N-Urea)	5.4%
P	Phosphorus	2.2%
K	Potassium	4.1%

Water soluble (K)

4.1%

Fe

Iron

8.00%

Benefits

- \\ N, P, K & Fe formulation for early spring applications
- \\ High Fe content for strong color without growth
- \\ Consistent spread even at low rates
- \\ Proven through multiple trials to provide strong color and turf health

Characteristics

Pack size	25kg
Formulation type	Micro-granule
Technology	Conventional
Granule size	0.5mm–1.5mm
Longevity	6 weeks *depending on environmental factors
Typical turf response	<7 days

Application rates

Application rate	Bag coverage (m2)
25g/m2	1,000
30g/m2	833
35g/m2	714

How to use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
