Description

Make sure your potato, open field vegetable, and processing tomato crops are ready to spring into action with Agromaster® 11-8-27+3CaO+13SO₃ | 1-2M. This high-potassium fertiliser, combined with a high level of coated nitrogen, is designed to help your medium-long crops survive even the most unfavourable light soil conditions, all thanks to ICL's E-Max Release Technology. Enjoy consistently high yields by helping your plants stand up to the heaviest of spring showers, thereby preventing any unwanted nutrient losses.
