

Seed and Modular

Peat free growing media designed to meet the individual requirements of crops

Description

Levington Advance Sustain Seed and Modular growing media are formulated with a foundational level of fertiliser tailored to meet the specific needs of crops and growth patterns. Its fine particle size, along with the inclusion of H2Gro wetting agent and optimised pH levels, ensures that plants will thrive and flourish in the Levington Advance Sustain medium.

Benefits

- \\ Osmoform slow release fertiliser for gradual release of nutrients
- \\ Ideal pH levels for plant growth
- \\ H2Gro granules added in addition to liquid to ensure good wetting up and re-wetting
