

Potting

A sustainable growing media providing a good open well drained structure

Description

Levington Advance Sustain Potting is a sustainable growing media designed to provide a good open well drained structure with base fertiliser levels. H2Gro wetting agent is added to optimise water uptake and rooting. Different markets have different plant specifications so the growth can be controlled by adding Osmocote Exact or by liquid feeding.

Benefits

- \\ Osmoform slow release fertiliser for gradual release of nutrients
- \\ Ideal pH levels for plant growth
- \\ H2Gro granules added in addition to liquid to ensure good wetting up and re-wetting
- \\ Contains ICL's Fibagro Advance
