Biorational approach against Black Vine Weevil

Description

A biorational pesticide for the suppression of vine weevil eggs and early stage instar larvae. It is approved through an Extension of Authorisation for Minor Use (EAMU) in containerised ornamental plants, both protected and outdoors.

Benefits

- \\ Granular biorational insecticide
- \\ Part of an IPM solution to the problem of Black Vine Weevil
- \\ No resistance or re-entry periods
- \\ Low impact on non-target organisms

Application rates

Maximum application rate

240kg per Ha (24g per m²)
