Description

Boost plant growth with Peters[®] Professional Grow-Mix. Low-phosphate, balanced N:K, high urea for potted plants like orchids. Maximise yields and beauty.

Benefits

- Fully water-soluble small granules for easy dissolving
- Made from a pure formulation with no added ballast substances
- Developed for potted plants, bedding plants, container nursery stock, and other peat-based cultures

Characteristics

How to use

- 1 You should prepare solution 1-2 hours in advance by stirring well or applying warm water.
- 2 This will cause the product to dissolve completely before use.
- 3 Do not mix with Peters Excel.
- 4 Close partly used or damaged bags securely.
- 5 Store under dry conditions.
- 6 If you need more information, please contact your technical support.

Application rates

Continuous feeding 0.5 – 1.5 g/liter

Occasional feeding (for example, once a week) 0.8 – 2 g/liter

Attention Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL Specialty Fertilisers cannot be held responsible for any adverse results.

Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
