	Water soluble (Zn)	0.015%
	Zinc EDTA (Zn)	0.015%

Description

For nitrogen-rich irrigation, choose Combi Sol. Packed with NPK, magnesium, trace elements, and Peters® M-77 chelating formula, 1:6 N:K ratio ensures even growth. Ideal for two-tank or standalone use. Yields rapid results in various plants. Easy-dissolve granules, fully soluble.

Benefits

Necially formulated for irrigation water high in nitrogen

M Small, easy-dissolve granules

**** Fast response

Characteristics

How to use

- 1 It's best to prepare your stock solution 1-2 hours before use, stir well, or use warm water to make sure that Peters® Professional Pot Plant Special dissolves completely.
- Do not mix this product with Peters Excel.
- 3 Close partly used or damaged bags securely.
- 4 Store under dry conditions.
- If you need more information, please contact your technical support.

Application rates

Continuous feeding 0.5 – 1.5 g/liter (for example, once a week) 0.8 – 2 g/liter

Attention Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL Specialty Fertilisers cannot be held responsible for any adverse results.

Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
