Description

Enhance plant growth with Peters Professional Plant Starter. Ideal for pot, bedding, and container plants. Stimulates rapid, robust root growth and flower bud development. Packed with essential trace elements, NPK, and our unique Peters M-77 chelating formula. Perfect for peat-reduced and peat-free growing media. Unlock your plants' full potential!

Benefits

Nelping plants form stronger, more consistent roots

M Small, easy-dissolve granules

Also encourages bud formation

Characteristics

How to use

- 1 It's best to prepare your stock solution 1-2 hours before use, stir well or use warm water to make sure that Peters Professional Plant Starter dissolves completely.
- Do not mix this product with Peters Excel.
- 3 Close partly used or damaged bags securely.
- 4 Store under dry conditions.
- 5 If you need more information, please contact your technical support.

Application rates

Occasional feeding

(for example, once a week) 0.8 - 2 g/liter

Attention Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL Specialty Fertilisers cannot be held responsible for any adverse results.

Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
