### Description

Calmag Finisher is a single-tank mix fertiliser providing plants with all the essential nutrients required. It is often used as a follow-up to CalMag Grower. It has a high potassium formula that leads to compact and condensed growth. CalMag Finisher is also compatible with Calcium nitrate.

## How to use

- 1 You can mix this product in the same tank with calcium nitrate (50:50).
- 2 It's best to prepare your stock solution 1-2 hours before you use it, stir well, or use warm water to make sure that CalMag Finisher dissolves completely.
- 3 Do not mix Peters Excel with any other NPK or phosphate containing fertilizer, except phosphoric acid.
- 4 Close partly used or damaged bags securely.
- 5 Store under dry conditions.
- 6 If you need more information, please contact your technical support.
