Description

When your vegetable, fruit, and arable crops need a balanced phosphorus kick, go for Agrolution® pHLow 151 fertigation fertiliser. Agrolution® pHLow water-soluble acidifying fertilisers provide your plants with the right level of nutrients, while resolving issues surrounding water quality in hard water areas. Your crops will enjoy all-round nutrition and healthy sustained growth thanks to this product's high-phosphorus NPK formula. With an enhanced purity, solubility, and acidifying effect, you can prevent deposits and blockages for your irrigation systems.
