

# Agrolution pHLow

335

## Description

Take care of any of your crops' potential phosphorus shortages with Agrolution® pHLow 335 fertigation fertiliser. With ICL's range of Agrolution® pHLow water-soluble acidifying fertilisers, you can enhance your plants' level of nutrition while resolving any issues surrounding water quality in hard water areas. Ensure healthy crop growth and perfect nutrition with its high-phosphorus NPK formula, complete with added trace element package. Stop your irrigation systems from suffering harmful deposits and blockages thanks to an enhanced purity, solubility, and acidifying effect.
