Description

Agroblen® with V-Factor 9-20-8+3MgO+0.1B | 8-9M is an innovative, environmentally-friendly fully coated NPK fertiliser providing full nutrition to young seedlings for 8-9 months. It was especially created for use in new plantations in forestry, vineyards, and orchards. On top of the nutrients you'd expect, it also contains our V-Factor organic growth enhancer to help form stronger roots, taking your young trees' growth to the next level, and to minimise any osmotic stress. Our patented Resin Release Technology coats the granules: you'll get NPK in the perfect ratio for long-term establishment, plus magnesium and boron, with leaching minimised. Soil microbial biomass is enhanced too. State-of-the-art nutrition for better survival rates, better establishment, and better trees all year round.

Guaranteed analysis

Elemental

N	Total Nitrogen	8%
	Nitrate nitrogen (N-NO ₃)	2.1%
	Ammoniacal nitrogen (N-NH ₄)	5.9%

P	Phosphorus	8.7%
	Water soluble (P)	6.5%
K	Potassium	5.8%
	Water soluble (K)	5.8%
Mg	Magnesium	1.8%
B	Boron	0.10%

Benefits

- Controlled-release NPK for long-term crop establishment, especially young trees
- Growth enhancer for strong roots and improved survival rates
- Minimised nutrient loss thanks to advanced coating

Application rates

Forestry:

Crops:	g/plant:
Eucalyptus – new plantations:	50-75 g/plant
Picea spp. – new plantations:	20-30 g/plant
Orchards – new plantations:	75-100 g/plant
Vineyards & soft fruits – new plantations:	10-20 g/plant

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

- 1 Agrobien with V-Factor technology is developed for open-field application in forestry, vineyards, and orchards, especially for new plantations.
- 2 It's safe to use it close to the root zone, in the planting holes.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.
- 5 If you need more information, please contact your technical support.

Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
