

Agromaster®

14-5-18+27SO3

A balanced blend for many crops

14 | 2.2 | 14.9 | 10.8
N | P | K | S

Guaranteed analysis

Elemental		
N	Total Nitrogen	14%
	Ammoniacal nitrogen (N-NH4)	8.8%
	Urea nitrogen (N-Urea)	4.9%
P	Phosphorus	2.2%
	Water soluble (P)	1.7%
K	Potassium	14.9%
	Water soluble (K)	14.9%
S	Sulphur	10.8%

Description

Agromaster® 14-5-18+27SO3 | 1-2M can tackle any conditions that might come its way. It features a blend of controlled-release nitrogen with carefully chosen conventional fertiliser granules. This effective fertiliser is environmentally compliant, and our special E-Max Release Technology means less nitrogen will be lost through leaching, volatilisation, or denitrification. It's easy to use, and it's the perfect formula for higher yields with crops such as leafy vegetables such as spinach or rocket, or mature orchards or vines.

Benefits

- \\ Balance of nitrogen and potassium, plus sulphur
- \\ Higher yield thanks to sustained nutrition and minimised nitrogen loss
- \\ Combination of directly available nutrients and technologically controlled release

How to use

- 1 Apply by broadcasting, or by row or bed.
- 2 Incorporate Agromaster® in the soil between 5-10 cm depth.
- 3 Where applicable, place the product under drippers.
- 4 Irrigating after application improves product and plant performance.
- 5 If you're using WSFs in the second part of the crop cycle, reduce the dosage of Agromaster® accordingly.
- 6 Store under dry conditions.
- 7 Properly seal partly used or damaged bags.
- 8 If you need more information, please contact your technical support.

Application rates

Crop	Rate
Mature plantations	
Vineyards and orchards	400-800 kg/ha
Leafy vegetables	
Spinach and rocket salads	400-800 kg/ha
