## Guaranteed analysis

### Elemental

N	Total Nitrogen	20%
	Nitrate nitrogen (N-NO <sub>3</sub> )	4.3%
	Ammoniacal nitrogen (N-NH <sub>4</sub> )	2.2%
	Urea nitrogen (N-Urea)	13.5%
P	Phosphorus	8.7%
	Water soluble (P)	8.7%
K	Potassium	16.6%
	Water soluble (K)	16.6%
B	Boron	0.03%
	Water soluble (B)	0.03%
Cu	Copper	0.070%
	Water soluble (Cu)	0.070%
	Copper EDTA (Cu)	0.070%
Fe	Iron	0.15%
	Water soluble (Fe)	0.15%
	Iron DTPA (Fe)	0.15%
Mn	Manganese	0.07%
	Water soluble (Mn)	0.07%
	Manganese EDTA (Mn)	0.07%
Mo	Molybdenum	0.001%
	Water soluble (Mo)	0.001%
Zn	Zinc	0.070%
	Water soluble (Zn)	0.070%
	Zinc EDTA (Zn)	0.070%

## Characteristics

## Description

Agroleaf® Power Total is a premium water-soluble foliar feed, packed with a balance of essential elements to prevent deficiencies of all major and minor nutrients. It is suitable for a wide range of crops, especially those that may suffer from stress or uptake difficulties during cold or wet growing periods, high soil pH, and heavy production. In addition to the usual NPK, Power Total contains the ICL M-77® chelated trace element and a stimulant package for optimal uptake through the foliage and prolonged availability of microelements. Produced from the purest raw materials, Agroleaf® Power Total dissolves quickly, making it easy to apply, and it won't block your spraying equipment. And because Power Total is highly concentrated, you won't need to use as much as you might think.

## Benefits

- Delivers all major and minor nutrients and ensures efficient uptake
- Perfect in difficult growing conditions
- Prolongs availability of microelements

## How to use

- 1 Apply under high pressure.
- 2 Can be mixed with many fungicides/insecticides. Ask your distributor for information.
- 3 For all mixes with chemicals, do a small trial before using on a large scale. Check response in 2 or 3 days.
- 4 Avoid spraying in periods of unfavorable conditions (for example bright sunlight, high midday temperatures, and high evaporation periods).
- 5 If you need more information, please contact your technical support.

## Application rates

---

Dissolve 3-5 kg in 200-600 liters of water per hectare for outdoor applications.

---

We recommend a 0.3% solution for greenhouse application.

Trial first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
