|           | Zinc EDTA (Zn)                           | 0.010% |

## Description

Agrolution range of water soluble fertilisers has been developed with two objectives: the availability of all nutrients in the correct proportions and the convenience of solving water quality problems with one product. Agrolution<sup>®</sup> Special 313 14-7-14+14CaO+TE When your crops yearn for a balanced, high-nitrogen, and high-phosphorus NPK nutritional formula, reach for Agrolution<sup>®</sup> Special 313 fertigation fertiliser. With this application, you can deliver all the nutrients your plants could ever need, while also improving overall nutrient availability. Due to its enhanced purity, solubility, and acidifying effect, you can protect your irrigation systems from harmful blockages and deposits. Prevent your plants from certain diseases thanks to its added levels of calcium, which also prolongs its overall shelf life.

## Benefits

- \\ Prevents calcium deficiencies
- \\ Improves nutrient availability and uptake
- \\ Delivers all necessary nutrients
- \\ All-in-one convenience
- \\ Pure ingredients
- \\ Keeps irrigation systems clean
- \\ Dissolves completely

## How to use

- 1 The Agrolution® range offers a wide range of analyses covering all crop growth stages while providing tailored assistance to specific soil and water types.
- 2 Store under dry conditions.
- 3 Properly seal partly used or damaged bags.
- 4 For tailored advice, contact your ICL advisor and ask for information specific to Agrolution® Special.

## Application rates

Water soluble fertilisers for soft fruit with two products covering all stages of growth  
General strawberry recommendations (more specific advice can be given if required)

---

The average recommended application rate is 40-50 kg/ha per week.

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
