	Water Soluble (K2O)	47%

## Description

Fertiflow Potassium+ 08-00-47+7S is a Potassium rich fertilizer with the added strength of Sulphur enhancing the nutritive value of the crops. It improves the use efficiency of other essential plant nutrients, particularly N, P and some micronutrients such as Zn, Fe, Cu, Mn and B. This product improves crop product quality by increasing protein and oil percentage in seeds. When applied to cereal crops, fruits or vegetables, it adds to their quality, nutritional value and marketability.

## Benefits

- Increased nutrient availability Due to low pH (2.8)
- Increased fruit-bearing, size, shining, and shelf life for your crops
- Enhanced pest and disease resistance by regulating water in plants and fruits
- Increased crop yield and quality

## How to use

- 1 Recommended for fertigated crops.
- 2 Store under dry conditions. Properly seal partly used or damaged bags.

## Application rates

Minimum Average	10kg/acre
Maximum Average	25kg/acre

It is advised to adjust the application rates beyond the suggested limit as per the crop's status and nutrient requirement. It is recommended to undertake a trial on a small scale before changing the application rate or any other variables, as circumstances can differ. As the recommended application rate might be beyond our control, hence, ICL cannot be held responsible for any adverse results.

## Attention

Contact your ICL advisor for more detailed advice. Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
