

NutriVant™ Foliar Nutrition Line

Starter 11-36-24

Foliar application fertilizers

11 | 36.0 | 24.0
N P2O5 K2O

Guaranteed analysis

Oxide		
N	Total Nitrogen	11%
	Urea nitrogen (N-Urea)	11.0%
P2O5	Phosphorus Pentoxide	36.0%
	Water soluble (P2O5)	36.0%
K2O	Potassium Oxide	24.0%
	Water Soluble (K2O)	24.0%

Description

Nutrivant Starter 11-36-24 comes from the Nutrivant family of Foliar Fertilizers. It's rich in Phosphorus and Potassium in particular. These are among the top macronutrients essential for plant growth. It is responsible for assisting the growth of roots and flowers and subsequently, the seed formation. It also helps plants withstand environmental stress and harsh weather variations. Thus, helping the crops in early establishment, development, and prematurity growth stages.

Benefits

- Useful in early establishment, development, and prematurity growth stages
- Trace elements which include micronutrients are also helpful in improving growth and yield
- Increase nutrient use efficiency and uptake

How to use

To be used for Foliar applications

- 1 Add water to the fertilizer
- 2 Apply to leaves
- 3 For more recommendations and information, contact your nearest ICL distributor or your area’s local ICL advisor

Application rates

Minimum	1kg/acre
Maximum	2kg/acre

Dose your irrigation water with this solution, adjusting according to your crops’ conductivity or ratio requirements. Trial first on a small scale before changing the rate, or any other variables, as circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results

Attention

Contact your ICL advisor for more detailed advice. Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
