Description

Polysulphate® is a multi-nutrient, natural fertilizer mined exclusively by ICL in the UK. It provides four plant nutrients – sulfur, potassium, magnesium, and calcium that contribute to optimum plant performance. Standard Polysulphate is ideal for direct application in the fields. It is also excellent as a raw material for NPKS production. Using Polysulphate in granulated PK and NPK fertilizer production incorporates additional sulfur, magnesium, and calcium into the product. Standard Polysulphate provides added value by replacing any fertilizer filler with valuable plant nutrients. Incorporating Polysulphate as a raw material in fertilizers better meets the needs of crops while perfectly matching soil types and climatic conditions.

Analyse garantie

Oxyde

N	Azote total (N)	0%
P ₂ O ₅	Pentoxyde de Phosphore	0%
K ₂ O	Oxyde de Potasse	13%
	Soluble dans l'eau (K ₂ O)	13%

CaO	Oxyde de Calcium Soluble dans l'eau (CaO)	16.5% 16.5%
MgO	Oxyde de Magnésium Soluble dans l'eau (MgO)	5.6% 5.6%
SO ₃	Trioxysde de Soufre Soluble dans l'eau (MgO)	46.5% 46.5%

Avantages

- \\ All-natural raw material
- \\ Provides magnesium boost for plants and soil
- \\ Ideal complement to any NPK fertilizer application

Doses d'applications

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Recommandations d'utilisation

- 1 Apply this raw material directly to fields, orchards, and plantations as part of your NPK granulation process.
- 2 If you need more information, please contact your technical support.

Attention

Il est recommandé, avant toute utilisation d'un nouveau dosage, d'un nouveau produit ou d'une nouvelle méthode d'application, d'effectuer un essai à petite échelle. Ne pouvant pas contrôler les conditions et les méthodes d'utilisation du produit, ICL décline toute responsabilité en cas de résultats négatifs. Pour des recommandations spécifiques, veuillez consulter votre technicien ICL.
