## Description

For those turfgrass surfaces craving their spring or summer nitrogen kick, look no further than Sierrablen® Plus Mini.

This specially formulated fertilizer is packed full of controlled-release nitrogen to give your turf 2-3 months of sustained healthy growth, along with a level of pre-stress conditioning it in anticipation of the harsher months ahead. At the same time, witness an instant response thanks to a small amount of readily available nitrogen. Alternatively, use this product as a base feed together with other nutrients.

## Benefits

- \\ Ideal for pre-stress conditioning
- \\ Controlled steady 2-3 month nitrogen release
- \\ Works even at low temperatures

## How to use

- 1 Apply directly to dry foliage.
- 2 Watering-in after application helps dispersion and boosts immediate effect.
- 3 Do not apply during drought or frosty conditions.
- 4 You should apply following completion of aeration programs, including scarification, slitting and/or hollow tining to prevent damage to the granules.
- 5 Properly seal partly used or damaged bags.
- 6 Store under dry conditions.
- 7 If you need more information, please contact your technical support.

## Application rates

---

Average Recommended Rate:

37.5 g/m<sup>2</sup>

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
