

Organ 2-4-6 AA

A first-class eco-friendly one-of-a-kind solution

Description

Flecotec Organ 2-4-6 AA is a formulation with high water-soluble potassium and phosphorus content. It contains 2% free amino acids obtained by enzymatic hydrolysis of animal proteins. Recommended for all types of crops.

Flecotec Organ 2-4-6 AA fertilizer is certified with the UNE 142500:2017 standard as inputs suitable for organic plant production in accordance with Regulation (EU) 2018/848 of the European Parliament and of the Council of 30 May 2018 on organic production and labelling of organic products.

Certificates for organic farming

Benefits

- Rich in phosphorus and potassium
- Natural source of nitrogen
- እ It can be used in organic farming in accordance with Regulation (EU) 2018/848

Application rates

You can apply Flecotec Organ 2-4-6 AA to most crops and soils by fertigation with a dose of 20-40 I/ha per application.

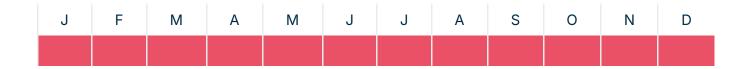

These recommended dosages are provided as a guideline only, as growing conditions may vary depending on the species grown, varieties, irrigation water, soil, climate, and overall crop health. Please contact your ICL delegate if you need further advice on dosage.

Do a first trial or small-scale trial before modifying the dose, application, or any other variables. As circumstances may vary and we have no control over the application of our products, ICL cannot be held liable in the event of adverse results.

How to use

- The use of Flecotec Organ 2-4-6 AA is recommended in the fruit setting and fattening phase.
- 2 Store in a dry place at temperatures between 5 and 30°C.
 - If you need more information, ask for technical advice.

Recommended period of use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
