

Nova® Complex Optima

10-5-30+31SO₃+2MgO+TE

Complex Optima is the optimal solution for your fertigated crops

10 | 5 | 30 | 2.0 | 31 | TE
N P₂O₅ K₂O MgO SO₃

Guaranteed analysis

Oxide		
N	Total Nitrogen	10%
	Nitrate nitrogen (N-NO ₃)	4.3%
	Ammoniacal nitrogen (N-NH ₄)	5.7%
P ₂ O ₅	Phosphorus Pentoxide	5%
	Water soluble (P ₂ O ₅)	5%
K ₂ O	Potassium Oxide	30%
	Water Soluble (K ₂ O)	30%
MgO	Magnesium Oxide	2.0%
	Water soluble (MgO)	2.0%
SO ₃	Sulphur trioxide	31%
	Water soluble (SO ₃)	31%
Fe	Iron	0.02%
	Water soluble (Fe)	0.02%
	Iron EDTA (Fe)	0.02%
Mn	Manganese	0.01%
	Water soluble (Mn)	0.01%
	Manganese EDTA (Mn)	0.01%
Zn	Zinc	0.005%
	Water soluble (Zn)	0.005%
	Zinc EDTA (Zn)	0.005%

Description

When looking to provide optimum nutrition for your fertigated crops, avoid unnecessarily complex solutions and opt for Nova® Complex Optima 10-5-30+31SO₃+2MgO+TE fertilizer. With its high-potassium NPK formula, it is complemented by a suitable ratio of sulfur and magnesium, enriched with a trace element package consisting of iron, zinc, and manganese, to provide your plants with all-round nutrition for that all-round, healthy growth. This water-soluble fertilizer is formulated with DMPP, encouraging nitrogen to remain in the soil for longer, and therefore making your plants' nitrogen use more efficient.

Benefits

- High-potassium NPK ratio
- DMPP reduces nitrate leaching
- Completely chloride-free

Characteristics

This is a test

This is a test

How to use

- 1 Apply especially to fertigated crops. For more recommendations and information, contact your nearest ICL distributor or your area's local ICL advisor.
- 2 Store under dry conditions. Properly seal partly used or damaged bags.

Application rates

Recommended concentration for 1000 liters of field stock solution: 100-150 kg per 1000 liters of water. Dose your irrigation water with this solution, adjusting according to your crops' conductivity or ratio requirements. Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
