

**Nutri  
Liquid**

## pH Control

Take control of your soil pH

## Description

Nutri Liquid pH Control is a pH regulator for irrigation water containing 12% nitrogen. With 54% nitric acid, it acidifies soil and reduces the pH level. This frees up nitrogen to boost your plants' growth. What's not to love about that? Suitable for all types of crops and comes in a ready-to-use solution, so no pre-mixing required.

## Benefits

- \\ Prevents clogging in your irrigation systems
- \\ Accurate and homogeneous dosing
- \\ No prior dissolution process required

## How to use

- 1 For more information or recommendations, contact your nearest ICL distributor or representative for your area.

## Application rates

Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
