Description

A magnesium-based liquid fertilizer, Nutri Liquid Mag-S includes a good helping of sulfur too. With 14% sulfur trioxide and 7% magnesium sulfate, Mag-S supplies two key nutrients that work hand in hand, giving your plants a push to produce the yield you're yearning for. ICL's experts have crafted the product to meet your crops' plants' agronomic requirements. Plus it's ready-made and easy to apply.

Benefits

- Prevents and corrects magnesium and sulfur deficiency
- Full nutrient availability
- Accurate, safe, and homogeneous dosing – no need to dissolve first

How to use

- 1 These formulations are designed for use in fertigation, particularly drip irrigation, and you can use them on all crops at any stage of their growth cycle.
- 2 For more information or recommendations, contact your nearest ICL distributor or representative for your area.
