

Nutri[®] Liquid

Phos 0-54.3-0

Keep your crops filled up with phosphorus with Phos 0-54.3-0

Description

In need of a liquid fertilizer that helps your plants grow in soils low in phosphorus? Nutri Liquid Phos 0-54.3-0 contains 75% phosphoric acid, supplying 54% phosphorus pentoxide to your crops, so they can extract energy from the sun and form compounds to keep them strong. You can apply it straight away and it matches your crops' agronomic requirements perfectly. To boost root development and bolster resistance to disease, Nutri Liquid Phos 0-54.3-0 gets the job done.

Benefits

- \\ Delivers the phosphorus your crops need to thrive
- \\ Full nutrient availability
- \\ Accurate, safe, and homogeneous dosing – no need to dissolve first

How to use

- 1 These formulations are designed for use in fertigation, particularly drip irrigation, and you can use them on all crops at any stage of their growth cycle.
- 2 Determine the dosage according to the specific characteristics of each crop and the conditions they are grown in, for example the type of soil or substrate, the quality of irrigation water, and the phenological stage of the crop or cultivar.
- 3 For more information or recommendations, contact your nearest ICL distributor or representative for your area.
