Phos 0-52-0

Make phosphorus deficiencies a thing of the past with Phos 0-52-0

Description

Nutri Liquid Phos 0-52-0 is a liquid fertilizer that packs a punch of phosphorus, for crops deficient in this nutrient. Containing 72% phosphoric acid, it delivers 52% phosphorus pentoxide to your plants, vital for harnessing the sun's energy and turning it into useful plant compounds. A ready-to-use products that's totally in tune with your crops' agronomic requirements. For stimulated root development and increased disease resistance, Nutri Liquid Phos 0-52-0 is just the ticket.

Benefits

- \\ Corrects and prevents phosphorus deficiency
- \\ Full nutrient availability
- \\ Accurate, safe, and homogeneous dosing – no need to dissolve first

How to use

- 1 These formulations are designed for use in fertigation, particularly drip irrigation, and you can use them on all crops at any stage of their growth cycle.
- 2 Determine the dosage according to the specific characteristics of each crop and the conditions they are grown in, for example the type of soil or substrate, the quality of irrigation water, and the phenological stage of the crop or cultivar.
- 3 For more information or recommendations, contact your nearest ICL distributor or representative for your area.
