CaO	Calcium Oxide	8%
	Water soluble (CaO)	8%

Description

If your crops just need a shot of calcium, reach for the AC-8. With this liquid formula specially designed for use in fertigation systems, that's exactly what they'll get: you can rely on it. You won't need to waste your time dissolving it as it's ready to pour in, plus it's cost-effective. Your plants will be stronger, healthier, and happier; calcium can even mean a longer shelf life for fruit and vegetables. A safe, easy, and accurate way to feed your crops.

Benefits

- \\ Calcium in liquid form
- \\ Ideal for fertigation
- \\ Safe, simple to use, good value

How to use

- 1 For more information or recommendations, contact your nearest ICL distributor or representative for your area.
- 2 Since circumstances and application may differ, ICL cannot be held responsible for any negative results. Perform a small trial for the first time and before any new applications, dose changes, or other changes in your cultural practices.
