Oxide		
N	Total Nitrogen	22%
	Nitrate nitrogen (N-NO ₃)	9.5%
	Ammoniacal nitrogen (N-NH ₄)	4.4%
	Urea nitrogen (N-Urea)	8.1%
P2O5	Phosphorus Pentoxide	0%
K2O	Potassium Oxide	0%
CaO	Calcium Oxide	10%
	Water soluble (CaO)	10%

Description

This is the perfect fertilizer when your plants are in the active growth stage: with 22% nitrogen to boost that growth and encourage good color and health, and 10% calcium oxide to strengthen plant cell walls and improve their absorption of nutrients, it's a winning formula. Don't waste time and energy dissolving powders or granules for your fertigation system: with Nutri[®] Liquid that's already done for you so all you have to do is pour it into your tank. A value-for-money way of feeding your crops, it's also safe and accurate too.

Benefits

- \\ Nitrogen and calcium in liquid form
- \\ Ideal for fertigation
- \\ Safe, simple to use, good value

How to use

- 1 If you need more information, please contact your technical support.

Recommended period of use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
