	Water soluble (CaO)	4%
MgO	Magnesium Oxide	2%
	Water soluble (MgO)	2.0%
SO3	Sulphur trioxide	32%
	Water soluble (SO3)	32%

## Description

Combifert® Pistachio fertilizer is packed with complete and balanced nutrition, specially adapted to the nutritional requirements of your pistachio trees. Easy to apply, it contains calcium and magnesium, essential nutrients to keep your trees and its fruits healthy as they develop. With 10% nitrogen and 32% sulfur trioxide, you're sure to get great growth and quality for your pistachios, which will taste delicious in ice cream and pastries.

## How to use

- 1 Apply Combifert® specialty fertilizer between rows 2 or 3 weeks before the start of bud-break.
- 2 To calculate the dosage, consider the nutrient content of the soil, which can be determined through a chemical analysis, as well as the nutrients that will be extracted by the crops based on their expected yield.
- 3 For more information or recommendations, please contact your ICL distributor or ICL advisor for your area.
