

Combifert®

8-15-15+18SO₃

A balanced NPK blend with a dash more phosphorous

8 | 15 | 15 | 18
N P₂O₅ K₂O SO₃

Guaranteed analysis

Oxide		
N	Total Nitrogen	8%
	Ammoniacal nitrogen (N-NH ₄)	8%
P ₂ O ₅	Phosphorus Pentoxide	15%
	Water soluble (P ₂ O ₅)	14%
K ₂ O	Potassium Oxide	15%
	Water Soluble (K ₂ O)	15%
SO ₃	Sulphur trioxide	18%
	Water soluble (SO ₃)	18%

Description

Combifert® 8-15-15+18SO₃ provides a balanced NPK blend, promoting healthy crop development. It's ideal for your vegetable, fruit, and extensive arable crops. The product also contains sulfur – an essential nutrient for healthy crop development – as well as a slightly more phosphorous than Combifert® 12-12-17+26SO₃. The combines to give you a powerful nutrition solution for healthy crops, yields and returns.

Benefits

- \\ A balanced blend with more phosphorus for photosynthesis
- \\ Easy to apply
- \\ Tailor-made for more efficient nutrition

How to use

- 1 Apply evenly to the surface of the soil, close to the root system, and then scratch into the soil.
- 2 Alternatively, localize the application and bury the granules in rows close to the root system.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.
- 5 For more information or recommendations, please contact your ICL distributor or ICL advisor for your area.

Application rates

The average recommended application rate is 300 to 700 kg of fertilizer per hectare, depending on the type of crop and expected yield.

Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
