

Combifert®

7-21-7+5CaO+10SO₃

A plate of phosphorous with a side of calcium

7 | 21 | 7 | 5 | 10
N P₂O₅ K₂O CaO SO₃

Guaranteed analysis

Oxide		
N	Total Nitrogen	7%
	Ammoniacal nitrogen (N-NH ₄)	4%
	Urea nitrogen (N-Urea)	3%
P ₂ O ₅	Phosphorus Pentoxide	21%
	Water soluble (P ₂ O ₅)	16.5%
K ₂ O	Potassium Oxide	7%
	Water Soluble (K ₂ O)	7%
CaO	Calcium Oxide	5%
	Water soluble (CaO)	5%
SO ₃	Sulphur trioxide	10%
	Water soluble (SO ₃)	10%

Description

Combifert® 7-21-7+5CaO+10SO₃ was made for growing vegetables, fruits, and extensive arable crops. Rich in phosphorous, this easy-to-apply product also contains 5% calcium. It's your go-to solution for healthy developing crops.

Benefits

- \\ Suitable for crops with a high phosphorus demand
- \\ Contains calcium, an essential nutrient for healthy crop development
- \\ Tailor-made for more efficient nutrition

How to use

- 1 Apply evenly to the surface of the soil, close to the root system, and then scratch into the soil. Alternatively, localize the application and bury the granules in rows close to the root system.
- 2 Trial first on a small scale before changing the rate, application, cultivation practices or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
- 3 For more information or recommendations, please contact your ICL distributor or ICL advisor for your area.

Application rates

300 to 700 kg of fertilizer per hectare, depending on the type of crop and expected yield.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
