Description

Combifert® 10-5-14+4CaO+33SO₃ is an NPK blend that's also bursting with sulfur, helping your crops form the proteins they need for healthy growth. Ideal for vegetables, fruits, and extensive arable crops. The product also comes with calcium, giving your plants a leg up during their prime stage of growth.

Benefits

- \\ A balanced blend with high sulfur content
- \\ Easy to apply
- \\ Tailor-made for more efficient nutrition

How to use

- 1 Apply evenly to the surface of the soil.
- 2 Close to the root system.
- 3 Scratch into the soil.
- 4 Alternatively, localize the application and bury the granules in rows close to the root system.
- 5 If you need more information, please contact your technical support.

Application rates

300 to 700 kg of fertilizer per hectare, depending on the type of crop and expected yield.

These recommended rates are only a guide, as crop conditions can vary depending on cultivated species, variety, irrigation water, soil, climate, and overall crop health. Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
