

# Combifert®

14-7-14+2MgO+21SO<sub>3</sub>

Sulfur galore plus magnesium, for plants that thrive

14 | 7 | 14 | 2 | 21  
N | P<sub>2</sub>O<sub>5</sub> | K<sub>2</sub>O | MgO | SO<sub>3</sub>

## Guaranteed analysis

Oxide		
N	Total Nitrogen	14%
	Ammoniacal nitrogen (N-NH <sub>4</sub> )	1%
	Urea nitrogen (N-Urea)	13%
P <sub>2</sub> O <sub>5</sub>	Phosphorus Pentoxide	7%
	Water soluble (P <sub>2</sub> O <sub>5</sub> )	6.8%
K <sub>2</sub> O	Potassium Oxide	14%
	Water Soluble (K <sub>2</sub> O)	14%
MgO	Magnesium Oxide	2%
	Water soluble (MgO)	2.0%
SO <sub>3</sub>	Sulphur trioxide	21%
	Water soluble (SO <sub>3</sub> )	21%

## Description

Combifert® 14-7-14+2MgO+21SO<sub>3</sub> contains a big boost of sulfur, giving your plants a vital helping hand with chlorophyll development and protein synthesis. It's also rich in magnesium to improve photosynthesis and it contains a good combination of NPK, to help your crops develop in the peak of health. It's perfect for fruits, vegetables, and extensive arable crops: just what they need for vigor and growth.

## Benefits

- \\ A balanced blend with high sulfur content, plus magnesium
- \\ Easy to apply
- \\ Tailor-made for more efficient nutrition

## How to use

- 1 Apply evenly to the surface of the soil, close to the root system.
- 2 scratch into the soil.
- 3 Alternatively, localize the application and bury the granules in rows close to the root system.
- 4 Store under dry conditions.
- 5 Properly seal partly used or damaged bags.
- 6 If you need more information, please contact your technical support.

## Application rates

---

300 to 700 kg of fertilizer per hectare, depending on the type of crop and expected yield.

Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
