## Description

Vitalnova Blade is a proven biostimulant that boosts microbial activity in soil and encourages rooting. It is regularly used to support the establishing turfgrass plant. It is a totally unique biostimulant for turf, containing a carefully engineered concentration of carbohydrates (sugars) and micronutrients.

## Benefits

- \\ Fast seedling growth
- \\ A direct source of plant energy – higher carbohydrate levels
- \\ Healthier soil for stronger roots

## How to use

- 1 Apply from March to August, depending upon conditions.
- 2 Vitalnova products may be tank-mixed with other ICL products, check tank mix table for actual compatibility.
- 3 Mix with Colour Pro spray pattern indicator to assist spraying and minimize spray drift.
- 4 The water volume used to apply Vitalnova products will affect how the components are utilized.
- 5 If you need more information, please contact your technical support.

## Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NNOV	DEC

## Application rates

### Recommended Rate:

20-50 L/ha

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
