

## NPK Blend

Deliver total plant nutrition straight to your plants' root system

### Description

ICL's granular NPK Blend fertilizers supply the three primary macronutrients plants require: nitrogen, phosphorus, and potassium. Available in tailor-made formulations containing essential sulfur, magnesium, and calcium to provide the balanced nutrition required for healthy crop growth. With all fertilizer elements blended in one mix, the nutrients that crops require can all be spread in a single operation and in the desired ratio, according to the needs of the crop, and the needs of the soil.

### Benefits

- \\ Contains the three primary macronutrients - nitrogen, phosphorus and potassium - all available for plant uptake
- \\ Tailor-made formulae with added magnesium, sulfur, and micronutrients
- \\ Easy distribution in the field with all modern mechanical spreaders
- \\ Deliver superior yields, improved quality, and increased profitability

## How to use

- 1 For direct application in fields, orchards and plantations or for bulk-blending with other fertilizers.
- 2 If you need more information, please contact your technical support.

## Application rates

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
