

ICL[®]PKPLUS[®]

ICL PKplus – High P

Five essential nutrients in one application with extra phosphorus

Description

ICL PKplus[®] High P is an advanced granular fertilizer that features our Polysulphate[®] technology, providing a continuous source of sulfur throughout the crop cycle, and a minimized risk of leaching. This blend is perfect if your soil is low in phosphorus: it will ensure your plants can establish themselves well and grow strong. It contains phosphorus, sulfur, potassium, magnesium, and calcium, so your crops have all the nutrients they need in one application with this five-in-one feast.

Benefits

- \\ A high-phosphorus blend combined with our Polysulphate[®] technology
- \\ Phosphorus, potassium, sulfur, magnesium, and calcium all rolled into one
- \\ Great plant establishment, and useful with soils with low phosphorus levels

How to use

- 1 Apply directly to fields, orchards, and plantations. When bulk blending, this product can be combined with nitrogen (N) fertilizers.
- 2 If you need more information, please contact your technical support.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.

Application rates

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Attention
