	Water soluble (CaO)	8.6%
MgO	Magnesium Oxide	6.7%
	Water soluble (MgO)	6.7%
SO <sub>3</sub>	Sulphur trioxide	24.3%
	Water soluble (SO <sub>3</sub> )	24.3%

## Description

Megapoly – ICL's new highly effective potash fertilizer, rich in potassium, calcium, magnesium, and sulfur. The powerful combination of quick-release and prolonged-release nutrients has been designed to meet your crops' needs. The product reduces your need for potash fertilizer, saving costs, improving quality, and increasing your profit. It also extends the shelf life and enhances the appearance and taste of fruits and vegetables. As Megapoly helps to drive photosynthesis, you'll see the difference it makes to your yield. What's more, it protects against drought and disease, also reducing the risk of lodging. It's suitable for different soil and crop types, and it can be applied pre-planting or as a top dressing. As a very stable product, Megapoly mixes well, making it ideal in blends with organic, compound or other fertilizers.

## Benefits

- \\ Combination of quick-release and prolonged-release potash nutrients
- \\ Cost-effective way to boost quality and profit
- \\ Prolongs shelf life and improves appearance and taste of fruits and vegetables

## How to use

- 1 Apply directly to fields, orchards, and plantations.
- 2 When bulk blending, this product can be combined with all other fertilizer types.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.
- 5 If you need more information, please contact your technical support.

## Application rates

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention
