

ProSelect®

Stadium TRT

For hard-wearing grass that repairs itself

Description

If you've been searching for top-end performance in terms of wear, disease, and shade tolerance for your sports turf, ProSelect® Stadium TRT scores the touchdown. This stadium-grade mix is a blend of darkgreen perennial ryegrass and Kentucky bluegrass, with outstanding purity and high germination. The revolutionary Torsion perennial ryegrass combined with Kentucky bluegrass creates a self-repairing turf system that's attractive and withstands rigorous use.

Benefits

- Repairs itself
- High wear tolerance
- Also suitable for shaded areas

How to use

Mowing height: 25-35 mm. If you need more information, please contact your technical support.

Application rates

Average sowing rate:

30 g/m²

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
