

# ProSelect®

## Prosperity

100% Poa pratensis

## Description

Prosperity for turf with a wealth of advantages ProSelect® Prosperity Kentucky bluegrass is fine-textured, with its aggressive rhizomes forming a dense, low-growing, dark green turf which reduces mowing clippings. It is a great choice for sports fields, fairways, and tees as well as sod production. It's tolerant to shade, while also being suitable to warmer climates. Plus, it's resistant to disease, such as leaf spot and stripe rust.

## Benefits

- \\ Low growing for low maintenance
- \\ Compact, dark green, well-balanced turf
- \\ Great choice for sports fields, fairways/tees and sod

## How to use

Average sowing rate: 12.5 g/m<sup>2</sup>. We recommend a cutting height of 12 – 50 mm. If you need more information, please contact your technical support

## Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
