Description

When stressed out turf makes for stressed out growers, reach for Landscaper Pro® Stress Control fertilizer. Apply this unique pre-conditioning formula in anticipation of any plant stress, with its controlled nitrogen release ensuring your turf is ready for the hard times ahead. Its high potassium content reinforces plant cell walls and optimizes water regulation in adapting to different temperature extremes, while magnesium ensures a lush leaf color.

Benefits

- \\ Nitrogen only released under optimum growing conditions
- \\ High potassium for stronger cell walls
- \\ Small granules for even nutrient distribution

How to use

- 1 Apply directly to dry foliage.
- 2 Watering-in after application helps dispersion and boosts immediate effect.
- 3 Do not apply during drought or frosty conditions.
- 4 You should apply following completion of aeration programs, including scarification, slitting and/or hollow timing to prevent damage to the granules.
- 5 Properly seal partly used or damaged bags.
- 6 Store under dry conditions.
- 7 If you need more information, please contact your technical support.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
